A program must use funds from USDA food Nutrition, and Consumer Services child nutrition programs as the primary source of payment for meal services.

PROCEDURE:

All classrooms and food service workers will comply with applicable Federal, State and local food safety sanitation laws, including those related to the storage, preparation and service of food and health of food handlers.

Children receive nutritious meals and snacks at school. The district and Early Childhood program receives federal assistance to serve these healthy meals. Meals served must meet nutritional requirements set by the National School Lunch Program (for breakfast & lunch) and set by CACFP (for snacks).

Regulations prohibit the Early Childhood program from having non-approved food items on site. Therefore, outside food (sack lunches, restaurant food) is not permitted.
